

UNMASKING THE TRUTH IN THE TORONTO REGION

(HOW THEY WANT TO SPREAD THE CORRUPTION TO OUR LOCAL)

Let's take a closer look at the “*dream team*” **Irwin Nanda** surrounds himself with. The one thing Irwin is best at is Deceit and deceiving the membership is really a walk in the park for Irwin Nanda. Don't be fooled that **Robby Jouhal** is running separate as him and Nanda have an agreement that will get Irwin Nanda to be the Toronto local president. The plan is for **Robby to pull out in round two** and return to being chief steward of maintenance, a vacancy that is still not filled. Let's look at these characters closely.

Irwin Nanda this name and **scandal** go hand-in-hand and have since his first election into the Region back in 1999. He has never done anything for anyone that isn't self-serving. He surrounds himself with people who jump to his every whim. This man has **no** respect for people. Those that know him well know that his reputation is one of **scandals** which include *sexual harassment, assault, racism, sexism, homophobia, and attacking the disabled* (as seen in his most recent attack bulletin against a disabled member who isn't even running in the election). With money gone missing and shamed out of the Ontario Federation of labour with a **\$500,000 payday in November 2015** this man still has yet to return to the work floor. What's he done instead of returning to the work floor like everyone else? Well for the **last 16 months he acts as a spokesperson for National Director Sanjay Sapra and is getting a paycheck with benefits through our union dues.** Yes that's right for the last 16 months he has been blocked off by Sanjay Sapra. Why would Sanjay do such a thing? Simple the entire Regional office was elected illegally thanks to Irwin Nanda's alliances who **cheated**. First they *stole the Local GM sign in book*, then Irwin's friend at National *made up the delegation list* tailored to Irwin followers, then they *modified the ballots and rules*, and insured the *entire* delegation was made up of pure corruption, as they **voted like robots** how he wanted them to. So to make a long story short Sanjay owes him.

Sanjay Sapra National Director or as he's better known as *puppet for Irwin Nanda*. His job is simply to do *Irwin's dirty work for the National executive board* in Ottawa. The majority of the board is corrupt, has a history with Irwin and follows his wishes like those lately constantly vote “yes” to interfering with local matters in a bully-like manner “do this or else....Trusteeship!” Ask him a question and see if he can answer anything without Irwin?

Mandeep Kalra The Education and Organization Officer (REOO) who can be found fraudulently and openly *running his wife dentistry during working hours* while taking a paycheck from *our union dues*! Never opened a contract or been a shop steward. The only work he does for our union is to run educationals of which he fills with all his friends and *pays them all \$400 (tax free) childcare whether they have children or not*. This is how he buys loyalty, and *votes at meetings*. National is aware of all this but chooses to do nothing, because of their good friend Irwin. Look up his wife's dentistry and you'll find him there...

Walter Woloschuk (RGO) is supposed to serve as your *Regional Grievance Officer* however spends most of his time sitting clueless beside a lawyer who represents our union in front of the labour board. Why? Because the regional office is screwing and devastating the membership because they aren't capable of representing the members. Whether it's ignorance with arbitrations, missing STDP time-limits or plain stupidity. Members are losing everything due to this office's incompetence which has never happened in the history of our union.

Pavneet Ver Union Representative (UR) Who Is She? Exactly. Her role is to be Irwin's main cheerleader, as he can do no wrong in her eyes. Ask her a contract question for a good laugh. Although it's not so funny when she argues your arbitration *and you get screwed!*

Gurmeet Dhillon Union Representative (UR) another one handed a position simply because he would do anything for Nanda. *He has no clue what he's doing*, which seems to be the common theme in this Region, which is funny, until he gets your arbitration, and *you're screwed!*

Owen Edwards Union representative (UR) he was given this job because they owe him as he was the *mastermind Chair behind cheating in the last local elections* by purchasing thousands of extra ballots. He's never opened a contract or been a steward. Team that together with no-conscience, morals or ethics after stealing the election from candidates by cheating, *would you trust him with your arbitration?* NO WAY! You would think that National would take immediate action since there is clear proof of the cheating, BUT NO! Probably because *Irwin told them not to...And they listen* as it seems *Irwin controls them*.
